CAPTURING MOMENTS CREATING LEGACY

At Midton, we specialise in transforming history into keepsakes—reimagining the unforgettable moments of the game into lasting artefacts for fans to own, display, and treasure.

By combining innovative casting techniques with high-end design, we turn physical elements of your club's story—debut balls, shirts, turf, corner flags, even clippings of sacred grass—into unique mementos that spark pride and connection. These aren't just souvenirs. They're fragments of time, preserved in beautiful cast acrylic forms unlike anything achievable through traditional fabrication.

Through our bespoke embedment processes, custom cast colours, and advanced print techniques, every product is a true reflection of your club's brand, values, and history. From limited-edition collectables to high-end presentation pieces, we create with purpose—and with your fans at the heart.

LEGACY CUBES

LEGACY CUBES

Since their debut in 2013 with the now-iconic Turf Cube, Midton’s Legacy Blocks have become one of the most recognisable ways for clubs to celebrate history and connect with their fans. Crafted in crystal-clear cast acrylic, these blocks encapsulate authentic elements from the heart of the game — turning fragments of club history into treasured keepsakes.

From legendary strikes and unforgettable saves to poignant moments of tribute and milestones in promotion, Legacy Blocks capture more than just a single match. They hold the essence of the club itself — its ground, its triumphs, its turning points, and the bond between team and supporters. Trusted by Premier League giants and rising clubs alike, Legacy Blocks have been commissioned to mark promotions, stadium farewells, and once-in-a-lifetime victories. Each block gives fans the rare opportunity to own a genuine piece of their club’s story.

Beyond turf, our expertise allows for a wide variety of inclusions: goal nets, corner flags, grass clippings, shirt fibres, boot studs, and even emblems of the club itself. Combined with custom cast colours, etched details, and branding options, every Legacy Block is both a collector’s piece and a deeply personal connection to the club’s heritage.
